

Impact Evaluation of Social Assistance System Modernization in Ukraine (2007-2010)

Kyiv Economics Institute conducts an impact evaluation of the Social Assistance System Modernization Project in Ukraine. The Modernization Project is implemented by the [Ministry of Labor and Social Policy of Ukraine](#) with support of the [World Bank](#) (Permanent URL for the Project: <http://go.worldbank.org/39KV9VU430>) and [Swedish International Development Agency](#). The Modernization Project involves transformation of Ukraine's scattered social assistance into a unified, function-based, streamlined, and client-oriented structure.

Impact evaluation involves econometric analysis of the Ukrainian Household Budget Survey (augmented by a project specific group of questions), Survey of Social Assistance Recipients and Survey of Employees of the Social Assistance System. The evaluation results are expected to be available by the end of 2010.
